

DX-1200 ExcelRemote IR

Simplify your life

Control all of your electronics with newfound ease using the amazing DX-1200 remote. This beauty is strong enough to control the most comprehensive home theater, yet elegant enough in appearance to sit in your living room, kitchen or guest bedrooms. It allows you to fully automate your home – from one touch to dim the lights and start the movie, to magically turning on music in every room.

Customize it to your lifestyle!

The DX-1200 can be fully personalized to your liking. With a button press, you can set lighting to match your mood, watch your favorite recorded show, or any combination of events you can dream up. Your custom installation professional configures your system to suit your family's needs perfectly.
