

DX-1300 Excel Remote with Bluetooth

Simplify your life

Control all of your electronics with ease using the amazing DX-1300 remote. This ergonomic beauty is built tough and gives you all the buttons you'll need to control any device in your home theater. It allows you to fully automate your home – from one touch to dim the lights and start the movie, to magically turning on music in every room.

Customize it to your lifestyle!

The DX-1300 can be fully personalized to your liking. With a button press, you can set lighting to match your mood, watch your favorite recorded show, or any combination of events you can dream up. Your custom installation professional configures your system to suit your family's needs perfectly.
